# Reuel Palanca

New York | LinkedIn | (845) 282-5282 | reuelpalancas@gmail.com

## EXPERIENCE

**Freelance**                                                                                               **Location**
*Frontend Software Engineer*                                          *Online, June 2021 - Current*
- Engineered scalable, responsive, multi-platform and SEO friendly websites using HTML5, CSS3, Javascript ES6 and ReactJS
- Connected to backend API's through Axios CRUD HTTP requests
- Created & revamped front-end user experiences to fit modern design conventions.

**Programming Tutor**                                                                             **Location**
*Discord Communities*                                                       *Online, Sept 2021 - Current*
- Tutored multiple students using modern conventions of HTML, CSS, Javascript and React
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API Requests
- Assisted students in developing a strong intuition in problem solving & how to search for solutions related to programming problems.

## Projects

**MovieToons**
- Designed and developed a project using the Movie DB API using ReactJS
- Installed responsive and multi-platform support to enable the website to be viewed on any platform and device
- Implemented fully functional pages, dynamic information and UI/UX best practices

**MangaOpus**
- Created an E-commerce website that dynamically displays a dataset of Manga volumes.
- Improved the website by compressing, caching and lazy loading images and components
- Built SEO, responsive and multi-platform support with sorting and total items functionality

## EDUCATION

**CS50 Introduction to Computer Science**                                    **Location**
*Harvard University*                                                                           *Online*
